2. Beam schedules

The 590 MeV ring accelerator is scheduled for 31 weeks of high intensity beam production from Mary 18 to December 20, 2020. A schedule has been worked out which satisfies most beam requests.

As usual, the beam schedules 2020 will be regularly updated and are displayed on the internet:

- <https://www.psi.ch/de/sbl/schedules> for the general schedule
- <https://www.psi.ch/en/smus/beamtime-schedule> for the μSR detailed schedule

3. Varia

The next meeting BVR 52 is scheduled for January 25-27, 2021. The first day is reserved for detailed reviews as usual. The deadline for beam requests, new proposals and addenda is January 11, 2021. Users are requested to make electronic submissions of their documents.

The dates for the next meeting BVRA-2021 are not fixed yet.
