

CV - Dr. Martin Densing

Scientist, Energy Economics Group (EEG)
Paul Scherrer Institute

Research Topics:

Energy Market Modeling
Energy optimization under uncertainty and risk-aversion
Risks of energy transitions

Curriculum vitae

Martin Densing

Energy Economics Group
Laboratory for Energy Systems Analysis
Paul Scherrer Institute (PSI)
Forschungsstrasse 111
CH-5232 Villigen PSI, Switzerland
Telephone: +41 56 310 2589
Fax: +41 56 310 44 11
e-mail: martin.densing@psi.ch

Personal information

| | |
|----------------|--------------------------|
| Date of birth | July 27, 1970 |
| Place of birth | Scherzingen, Switzerland |
| Nationality | Swiss |
| Marital status | relationship, one child |

Employment

| | |
|---------------------|--|
| Jul 2009 – | Research Scientist at Energy Economics Group, open-time contract, Paul Scherrer Institute, Switzerland |
| May 2008 – Jun 2009 | Freelance consultant (financial risk management). Customers: Swisscom IT Services Finance, retail banks in Switzerland and Liechtenstein |
| Jul 2006 – Apr 2008 | Consultant at FIS Corp. (financial risk management) |
| Sep 1999 – Sep 2005 | Research Assistant at Institute for Operations Research and Mathematical Methods in Economics (IOR), University of Zurich |
| 1997 – Sep 1999 | Consultant at Wolters-Kluwer Corp. (financial risk management) |
| 1995 – 1996 | Software Engineer (Martignoni Electronics Corp., Zürich) |

Education, academic degrees

| | | |
|----------------|-----------|--|
| Dr. sc. | June 2007 | Institute for Operations Research (IFOR), Department of Mathematics, ETH Zurich |
| MSc | Nov 1996 | Theoretical Physics, ETH Zurich |

Languages

German (native), English, French

Software Languages

GAMS (General Algebraic Modeling System), Mathematica, R, C, MatLab, SQL, VBA

Current research interests

Electricity market equilibria

Stochastic programming problems for commodity (energy) storage, exact solutions

Global Synfuel Pathways

Teaching

| | |
|--------------------|---|
| 2023 Fall | <i>Energy Systems Analysis: An Introduction and Overview with Applications.</i> ETH Zurich, 151-0245-00L |
| 2017/18/19/20 Fall | <i>Mean-Risk Optimization.</i> University of Zurich Full master's course, 2 hours weekly (3 ECTS points), incl. exercises and final exam. Faculty of Business, Economics and Informatics, University of Zurich, https://studentservices.uzh.ch/uzh/anonym/vvz/index.html#/details/2016/004/SM/50821177 |
| 2018/2019 Spring | <i>Optimization in Energy Systems.</i> Power Systems Lab. ETH Zurich. http://www.vvz.ethz.ch/Vorlesungsverzeichnis/lerneinheit.view?lerneinheitId=129102&semkez=2019S&ansicht=KATALOOGDATEN&lang=de 227-0530-00L |
| 2012 | Training course for company Saudi Aramco on energy systems modeling. |
| 2000–2005 | Exercises for courses Linear Programming, Nonlinear Programming; Seminar on OR application (on a continuous basis during employment as research assistant at University of Zurich) |

Projects

| | |
|-----------|--|
| 2020-2024 | <i>Risk-averse market equilibria under energy storage</i> |
| | • SNF-Seed-Project with 1 PhD student |
| 2023-2024 | <i>SHELTERED:</i> Sustainable synfuel pathways, with focus on air transport (SFOE project) |
| | • Global Energy System modelling of synfuel pathways and trades using the global energy system model GMM |
| 2023-2030 | <i>SWEET CoSi: Co-evolution of energy-system and society</i> |
| | • Co-creation of scenarios storylines with social factors |
| 2024-2025 | <i>Risks of the energy transition:</i> |
| | • Holistic risk mapping of transition risks (IRGC legacy project) |
| | • Evaluating quantitative stochastic scenario input for energy optimization modeling |
| 2020-2022 | <i>ReMaP (Renewable Energy Management Platform)</i> |
| | • Evaluating market conditions for successful deployment of a local P2Gas energy hub |

| | |
|-----------|--|
| 2017–2020 | <i>SCCER-SoE (Swiss Competence Centers of Energy - Supply of Electricity) – Phase II</i> |
| | <ul style="list-style-type: none"> • Work packages on Stochastic hydropower dispatch optimization and on Electricity market modeling • Co-PI (acquisition leader of Energy Economics Group's part) |
| 2015–2018 | <i>PowerDesign - Swiss policy options for future electricity markets</i> |
| | <ul style="list-style-type: none"> • Stochastic hydropower optimization for Switzerland under different Swiss and European market regimes, e.g. future capacity power markets. • PI. Scientific research partner: Karlsruhe Institute of Technology (KIT) |
| 2015–2017 | <i>SwissHydropower</i> |
| | <ul style="list-style-type: none"> • Market modeling and Risk-averse hydropower profit optimization using Multistage stochastic programming. • PI. Scientific advisor: Elektrizitätswerke Zürich (EWZ) |
| 2014–2017 | <i>BEM: Bi-level electricity market modeling</i> |
| | <ul style="list-style-type: none"> • Game-theoretic market model of Switzerland and of its surrounding countries; impact on price levels under different levels of market power • PI. Scientific research partner: Chair of Quantitative Business Administration, University of Zurich. • Scientific advisors: SFOE, electricity market specialists |
| 2012–2017 | <i>INSIGHT_E – EU energy consulting reports</i> |
| | <ul style="list-style-type: none"> • Reports and briefs for the European Commission (INSIGHT_E, the so called think-tank for DG Energy in Brussels) • PI (PSI's part). Scientific research partners: European Universities: UCL, UCC, KIT, Stuttgart |
| 2013–2016 | <i>SCCER-SoE (Swiss Competence Centers of Energy - Supply of Electricity) – Phase I</i> |
| | <ul style="list-style-type: none"> • Lead author on PSI-report and on journal article on Swiss electricity scenario comparison. • Analytical solutions of stochastic energy storage optimization problems |
| 2014 | <i>Comparison of Swiss Electricity Scenario Studies</i> . PI. |
| 2013–2014 | <i>National energy scenarios for New Zealand</i> |
| | <ul style="list-style-type: none"> • Detailing the World Energy Council's global scenarios for New Zealand. PI |
| 2012–2013 | <i>Global energy scenarios for the World Energy Council (WEC)</i> . |
| | <ul style="list-style-type: none"> • Numerical implementation of the two WEC scenarios. • Data manipulation software for large-scale energy system modeling • Co-acquisition and contract-framing |
| 2011 | <i>Global mobility scenarios for the World Energy Council</i> . |
| | <ul style="list-style-type: none"> • Numerical implementation of World Energy Council's "Tollway" and "Freeway" mobility scenarios. Co-PI. |
| 2010–2011 | <i>Global mobility scenarios for Volkswagen AG</i> |

Other research collaboration

University of Vienna, Dep. of Statistics and Operations Research & TU Wien, Operations Research and Control Systems: Book chapter, Invitation to colloquiums and conferences, Organizing conference sessions, Session chair

Karlsruhe Institute of Technology: Joint funded project

University of Zurich, Chair of Quantitative Business Administration: Joint publication and conference presentation, Joint funded project (see above)

University of Basel, Energy Economics: Combined workshop on electricity market-model development, Data exchange on electricity supply and demand models

University of Bergamo: Book Chapter, Invitation to conferences

Norwegian University of Science and Technology: Invitation to conferences and workshops, Invitation to PSI, Talk at PSI

University of St. Gallen. Institute for Operations Research and Computational Finance: Invitation to conferences and workshops

Energy Science Center, ETH: Scientific advisor for AFEM Project

Supervision (as principal advisor)

| | |
|-----------|--|
| 2024 | MSc thesis (ETH): Meta-analysis of Swiss electricity scenarios |
| 2020–2025 | SNF PhD thesis (ETH): The role of storage in risk-averse energy market equilibria |
| 2019–2024 | PhD thesis (ETH): Decentralized energy storage players |
| 2019 | MSc thesis (ETH): Impact of Nonlinear Inverse Price Demand Curves in Electricity Market Modeling |
| 2014–2017 | PhD thesis (ETH): Decentralized and renewable heat and electricity for communities in Switzerland (CCEM, IDEAS4Cities) |
| 2013–2017 | PhD thesis (ETH): Multi-objective optimization with life-cycle objectives in energy systems modelling. |
| 2016 | MSc thesis (University of Zurich): Empirical Analysis of Demand and Supply Curves of Electricity Prices in Europe |

Other activities

Referee's reports for: OR Spectrum, European Journal of Operational Research, Energy Journal, Journal of Commodity Markets

Memberships in professional societies

Swiss Operations Research Society (SVOR)

Mathematical Optimization Society (MOS)

International Association for Energy Economics (IAEE)

Densing, M., Mayer, J. (2011). Multiperiod Stochastic Optimization Problems with Time-Consistent Risk Constraints, *International Conference on Operations Research (OR 2011)*, **invited talk**, Zürich, Switzerland

Densing, M. (2007). Multiperiod risk measurement and optimal scheduling of electricity generation, *11th International Conference on Stochastic Programming (SPXI)*, Vienna, Austria

Densing, M. (2004). Approaches to multiperiod coherent risk measurement. *International Conference on Computational Management Science (CMS04)*, Neuchâtel, Switzerland

Other Conference Contributions

Liu, S., Densing, M, McKenna, R., Sansavini, G. (2024). Impact of storage flexibility in energy markets under risk aversion. *33th European Conference on Operational Research (EURO 2024)*, 30.6- 3.7, Copenhagen, Denmark

Wan, Y., Kober, T., McKenna, R., Densing, M. (2024). Market effects of Power-to-Gas technologies and their role under future gas supply shocks using a coupled electricity-gas-

hydrogen market model. *33th European Conference on Operational Research (EURO 2024)*, 30.6- 3.7, Copenhagen, Denmark

Densing, M. (2019). Modelling of dispatch of stored hydropower. *Swiss Competence Centre of Energy Research - Supply of Electricity Annual conference 2019*. EPFL, Lausanne, Switzerland

Wan, Y., Densing, M. (2019). Nonlinear Inverse Demand Curves in Electricity Market Modeling. *Swiss Competence Centre of Energy Research - Supply of Electricity, Annual conference*. EPFL, Lausanne, Switzerland

Wan, Y., Densing, M. (2019). Non-Linear Demand Curves in Electricity Markets: Impact on Market Power Estimation. *16th European IAEE (International Association of Energy Economics) Conference*, Lubliana, Slovenia

Panos, E., Densing, M., Kober, T. (2018). Langfristige Preisentwicklungen im Strommarkt, *SWISSCLEANTECH Tutorial*, Zürich, Switzerland

Densing, M. (2018). Explicit solutions of stochastic energy storage problems, *29th European Conference on Operational Research (EURO 2018)*, Valencia, Spain

Panos, E., Densing, M. (2018). The future development of the electricity prices in view of the implementation of the Paris Agreements in 2030: will the current trends prevail or reverse is ahead? *37th International Energy Workshop*, Gothenburg, Sweden

Kober, T., Panos, E., Densing, M., Kannan, R. (2018). Zukünftige Rolle der Schweizer Wasserkraft im Gesamtenergiesystem, *VSE Fachtagung "Zukunft der Wasserkraft"*, Olten, Switzerland

Densing, M. (2017). Modeling of electricity markets and hydropower dispatch, *Swiss Competence Centre of Energy Research - Supply of Electricity Annual Conference 2017*, WSL, Birmensdorf, Switzerland.

Kober, T., Yazdanie, M., Densing, M. (2017). Energiedrehscheibe Basel: Langfristuntersuchungen der zukünftigen Basler Energielandschaft basierend auf einem ökonomischen Optimierungsmodell, *in novatlantis Bauforum*, Basel, Switzerland

Yazdanie, M., Densing, M. (2017). The Role of Decentralized Generation and Storage Technologies in the Future Energy Systems of Swiss Communities, *INSMART - Integrative Smart City Planning (Final Conference)*, Brussels, Belgium

Densing, M., Kober, T. (2016). Exact dispatch solutions of stochastic hydropower problems (poster), *Swiss Competence Centre of Energy Research - Supply of Electricity Annual Conference 2016*, Sion, Switzerland

Volkart, K., Densing, M., Panos, E., Mutel, C., Sabio, N., Strachan, N. (2016). Implementation of multi-objective optimization in the MARKAL framework for simultaneously analysing the economic, societal and environmental performance of the global energy system, *wholeSEM Annual Conference 2016*, Cambridge, UK

Yazdanie, M., Densing, M. (2016). Decision-making for energy system planning using TIMES: the uptake of decentralized generation and storage technologies on a community-scale, *27th European Conference on Operational Research (EURO 2016)*, Poznan, Poland

Volkart, K., Panos, E., Densing, M. (2015). Review of Global Energy Scenarios (poster), *Swiss Competence Centre of Energy Research - Supply of Electricity Annual Conference 2015*, Neuchâtel, Switzerland

Densing, M., Panos, E., Turton, H., Hirschberg, S. (2015). Review and Meta-Analysis of Swiss Electricity Scenarios 2050 (poster), *Swiss Competence Centre of Energy Research - Supply of Electricity Annual Conference 2015*, Neuchâtel, Switzerland

Panos, E., Densing, M., Volkart, K. (2015). Achieving universal electricity access by 2030 in a sustainable way, *34th International Energy Workshop (IEW 2015)*, Abu Dhabi, UAE

Panos, E., Densing, M., Turton, H., Volkart, K. (2014). Orchestrating or improvising the global energy transition: Scenario modelling with the World Energy Council, *33rd International Energy Workshop (IEW 2014)*, Beijing, China

Panos, E., Densing, M., Turton, H., Volkart, K. (2014). Choosing a tempo to power Sub-Saharan Africa in 2050: Jazz and Symphony scenarios of the World Energy Council, *33rd International Energy Workshop (IEW 2014)*, Beijing, China

Turton, H., Densing, M., Panos, E., Volkart, K. (2013). World Energy Scenarios Composing energy futures to 2050 – PSI Methodology, *Swiss Energy Council's reporting from the 22nd World Energy Congress in Daegu 2013*, Energy Center, EPFL, Lausanne, Switzerland

PhD Thesis

Densing, M. (2007). *Hydro-Electric Power Plant Dispatch-Planning - Multi-Stage Stochastic Programming with Time-Consistent Constraints on Risk*, ETH Zurich, 2007, No.17244, [doi: 10.3929/ethz-a-005464814](https://doi.org/10.3929/ethz-a-005464814). Referees: Peter Kall, Hans-Jakob Lühi.

Master Thesis (grade: 6.0)

Densing, M. (1996). *Numerical Stability Analysis of Globally Regular Solutions of the Einstein-Yang-Mills-Dilaton-Proca-System*, University of Zurich (available on request). Examiner: Norbert Straumann.
