

PAUL SCHERRER INSTITUT

## PSI Career Mail

PSI Career Center – Training. Career. Happiness.

Dear all

I am happy to send you the June edition of the PSI career mail.

This time, the spotlight is on individual career counselling. In addition to the [video tutorials](#) on **how to create a CV** for an application in industry/government in Switzerland there are individual career counselling sessions available. How you can book one of these sessions, you'll find below.

Have you already registered for one (or all) of the upcoming PSI **career events**? We continue with the virtual format and have some cool topics and great speakers invited for you, and we will only have a short break for summer vacations.

Enjoy reading,  
Yvonne

## Spotlight on...

### **How you can book an individual career counselling session.**

Even though we offer now video tutorials to teach you how to create your CV for a non-academic application, it is helpful to have an **individual career counselling** session. In this session, we can either discuss and **further improve your CV**, or define your **job search strategy**. If applicable, I am also happy to help with **connecting people**. On this [doodle survey](#), you can find those slots blocked in my agenda for career counselling sessions. Please, choose one of them and I will confirm the appointment within 24 hours the latest.

The doodle is updated regularly and once you have chosen an appointment, no one else can read your name, but just see that the respective slot is not available anymore.

Counselling sessions are still very often with Zoom, but might change as soon as Corona restrictions allow more working time at the office.

### Leica Geosystems AG – part of Hexagon

Thanks to [Ralph](#) and [Birgit](#), we had an insightful career event on Tuesday evening 15 June. It was in a rather familiar atmosphere that Ralph talked about his career since his PhD at PSI and what it means to work as a Team Lead Systems Integration and Electronics and what challenges he faces in his daily life. Birgit offered insights into the recruiting processes at Leica Geosystems. She did not back away from sensitive questions or those rather difficult to answer.

Thank you both once again and I am looking forward to many more insightful career events to come.

# nature

### **Feedback needed: survey on salary and job-satisfaction**

Nature's in-depth study of scientists' troubles and triumphs will help nature to identify and address barriers to research careers.

*Nature* is encouraging researchers at every career stage in the fields of science, technology, engineering and mathematics to participate in its sixth salary and job-satisfaction survey. Created in partnership with Shift

Learning, a London-based research consultancy, the survey is available at <https://go.nature.com/2tdgdt0> and will run **online** from 7 June to 4 July.

## PSI Career Mail

The PSI Career Mail addresses mainly PhD and Postdocs. It shares news about job opportunities (academia and industry), career & networking events, ideas regarding your career development and others.

The PSI Career Mailing is sent out about once a month or upon need.

To unsubscribe from this list, please click on this [email](#).

Subscriptions can also be terminated by logging in to [Sympa](#), clicking on "subscription" or "Abbestellen" on the left hand side and following the respective instructions.
