

PSI Career Mail

PSI Career Center – **Training. Career. Happiness.**

Dear reader

This time the career blog “mind the gap” focuses on the element of self-analysis and self-assessment respectively and why this is rather a useful instrument than devil’s tool.

Big Data Engineers among us, one of the leading finance institutes in Switzerland is looking for you! In this team, there are already at least 2 PSI alumni working. Check out the paragraph “Industry is looking for...” for more details.

Enjoy reading,
Yvonne

Spotlight on...

... PSI Career Blog “mind the gap” – self-analysis!

While we ask ourselves every now and then whether we are still happy in our private lives, we often hesitate to do the same in our professional lives. Why this should be necessary?

Taking the time to assess your own professional situation is very valuable. Especially because nowadays a career is almost never straightforward, it is often helpful to be aware of certain points. [Read the article.](#)

(PSI) Career Events – learning, networking, fun...

All available details [here](#).

There are more career events to come in autumn...

PSI-FELLOW-III-3i program: Symposium 2022

How to prepare for the next stage of your career

30 May 2022, PSI East premises

A PSI-FELLOW program event for PSI's PhD students and postdocs

The PSI-Fellow-III program board is hosting a Career Symposium where early career scientists, both from academia and industry, will talk about how they transitioned from their PhD/Postdoc work to their current work. We will also hold separate discussion panels for industry and academia where students will have an opportunity to ask career- and research-related questions.

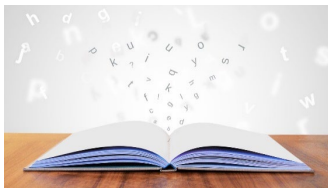

The aim is to help current PhD students and postdocs get a better idea of how to prepare oneself for the next stage of their career by seeing how someone of a similar background navigated the path towards success. There will also be a “sandwich-lunch” where you will have a chance to network with some of the speakers in a more casual setting.

UZH Summer School on the Fundamentals of Open Data, Research Data Management and Open Access

Yes, We're open!

11-15 July 2022, University of Zurich

Do you want to learn about **Open Data** and what it means to make your data FAIR? Do you have to write a data management plan but don't know where to begin? Are you unsure about copyright or how to manage sensitive data?

The **UZH Open Science Summer School** offers you an opportunity to gain a deeper insight into the world of Open Data, Research Data Management, and Open Access. National and international experts will guide you through hands-on workshops and provide theoretical input on various topics related to these subfields of Open Science. You will spend an entire week focusing not only on the

opportunities that Open Science has to offer, but also on the challenges that may come along with it.

For more detailed information about the lectures and workshops, please refer to our website: <https://openscience-summerschool.ch>

Target audience

We welcome applications from doctoral students and postdocs of all Swiss higher education institutions. Doctoral students can earn 2 ECTS. All talks and workshops will be held in English, and fluency in both spoken and written English is therefore required.

PSI Education Center – training, webinars, workshops

PSI Education Center offers some online courses to consider ongoing Corona restrictions and to respect the safety and security of course participants. Check the list of all courses [here](#).
