

5th Meeting of European MELCOR User Group (EMUG)
AlbaNova University Center, Stockholm , Sweden, May 2-3, 2013

Final Discussions

All Participants

Summary and Observations

- Good participations with a good number of new faces (especially young researchers/engineers)
- Broad applications of MELCOR: Experiments, plants, **SFP**, S/U, Fukushima, modeling development and validation, coupling with other code, and parallelization simulation
- Less presentations for Fukushima (compared with last time)
- **All presentations will be uploaded to EMUG homepage.**

- How to enhance collaboration ?
- Do we need extend the scope, e.g., to have invited talks?
- Interest for joint activities: e.g., any benchmark ?
- BSAF
- Other point you want to discuss?
- Organization of next meeting:
 - VUJE, Slovakia?
 - PSI, Switzerland?
 - Any other volunteer ?
